

**DEMING®**

Model 5050

**HORIZONTAL SPLIT-CASE CENTRIFUGAL PUMPS: MODEL 5060**

Horizontal split-case, single stage, double suction, general purpose pump, designed for continuous service handling both hot and cold fluids.

**Use for these applications:**

- General water supply • Booster service • Municipal waterworks • Air wash applications • Condenser cooling • Water circulation • Industrial service • Building service • Chemical plants • Power plants

**Basic Performance Details:**

- 30 sizes • Capacities to 7000 GPM • Heads to 500 feet • Discharge sizes 1 1/2" to 12"

Model 3060

**ANSI STANDARD PROCESS CENTRIFUGAL PUMPS: MODEL 3060**

All purpose centrifugal pump designed to B73.1 specifications, heavy duty service for liquids ranging from water and light hydrocarbons to heavy slurries.

**Use for these applications:**

- Chemical transfer • Booster service • Pollution control • Nuclear power

**Basic Performance Details:**

- 14 sizes • Capacities to 1200 GPM • Heads to 700 feet • Discharge sizes 1" to 4" • Temperatures to 600°F

3000 Series

**END SUCTION CENTRIFUGAL PUMPS: 3000 SERIES**

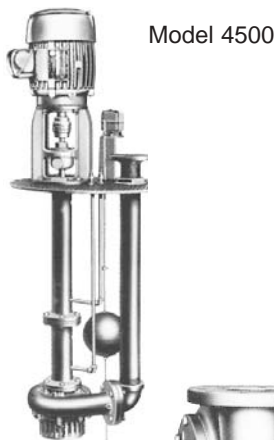

General purpose pump, available in frame-mounted and motor-mount, semi-open and enclosed impellers

**Use for these applications:**

- Industrial service • Air conditioning • Booster Service • Recirculation • Chemical service • Cooling tower • General water supply • Washer lines • Coolants • Irrigation • Building service • Pollution control

**Basic Performance Details:**

- 44 sizes • Capacities to 4000 GPM • Heads to 780 feet • Discharge sizes 1" to 10"

Model 4500

**VERTICAL SUBMERGED SUMP PUMPS: MODEL 4500**

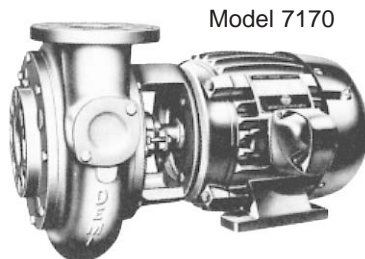

Broad range capacity, heavy duty, Simplex and Duplex units to meet demanding requirements of continuous pumping operations.

**Use for these applications:**

- Industrial processes • Industrial sump drainage • Corrosive and non-corrosive liquids • Dewatering service • Pollution control • Condensate return

**Basic Performance Details:**

- 20 sizes • Capacities to 4000 GPM • Heads to 250 feet • Sump depth to 25 feet maximum

Model 7170

**DRY PIT SOLIDS HANDLING PUMPS: MODEL 7170**

Horizontal and vertical models, five compact designs to meet widest range of service conditions.

**Use for these applications:**

- Sanitary wastes • Industrial wastes • Storm water • Process wastes • Pollution control • Cannery and meat process wastes

**Basic Performance Details:**

- 25 sizes • Capacities to 8000 GPM • Heads to 240 feet • Discharge sizes 2" to 12" • Handles 1 1/2" thru 6" spheres
